crimson

FAQ: How to Allow Pop-ups on an iPad (Mobile

Safari)

Some reports in Crimson will require browser pop-ups to be enabled. If you are using Safari as your browser on an iPad to run a Crimson report that requires this functionality, then you will want to take the following steps to enable pop-ups for your browser:

- 1. From the Home screen go to Settings
- 2. Select the Safari menu option.
- 3. Where it says "Block Pop-ups," tap the On/Off toggle to change it to Off.
